Sessions will include:

POWER POINT VISUALS, **VIDEO** & **LIVE EXOTIC-ANIMALS**

Q & A Discussion will follow each session, so be sure to write down your questions.

This seminar highlights new evidence revealed at the Cornell University symposium Mr. Galloway was invited to attend during the summer of 2011 – **“Biological Information: New Perspectives”**

Cornell University

New research contradicts the macroevolutionary theory that mutations created the genes for all life.

* Instead, research *supports* a *devolutionary* message about entropy, degeneration, death, & extinction.

** **NOTE:** natural selection is merely sorting & loss of existing genes, not vertical macroevolution.

MOST of what people *believe* (even “professionals”) about the origin of the universe, how the first life came to be, how the vast diversity of creatures arose including man, is based on what they’ve *heard*, not personal examination of the newest and best *evidence*. Much of this ignorance is due to an active *ensorship* forced by power-players in atheistic, liberal media and academia over the last 100 years.

YET, *thousands* of PhD scientists have become convinced by new evidence that macro (vertical) evolution by mutations is *impossible*. These courageous scientists have been professionally *persecuted* simply for revealing new *evidence* that challenges political correctness. * *I’ve interviewed many of them and am grateful for their mentoring of my efforts to translate their research conclusions for you.*

SECOND, this modern epidemic of origins ignorance is because active personal *study* by the average person has been replaced by *amusements* (TV, Movies, Video Games, superficial texting, and even *entertainment-focused* “church”). By the way, the term “amuse” literally means to “not think”. Belief that is not based on solid evidence is blind, irrational faith. In contrast, Hebrews 11:1 says that faith (belief) is the “*evidence* of things not seen”. Just as smoke is evidence of an unseen fire, so biological complexity and coded DNA information is evidence of our unseen Intelligent Designer.

THIS brief seminar is only part of a 7 PART (700 power point slide) *series* designed to provide the evidence supporting a truly *biblical* worldview – from beginning to end. Yet even the full 7-part series is only a small fraction of the mountain of evidence undergirding the good news of Christ our Creator.

SESSION 1 – OUTLINE:

Part A. How BELIEFS Shape Character & Culture

“If I told you **earthly [physical]** things and you **do not believe**,
how will you believe if I tell you **heavenly [spiritual]** things?”

[Jesus] John 3:12

“**Assumptions** can be dangerous; especially in **science** ... assumptions often **graduate to articles of faith** ... new **observations** are **forced** to fit them. . . .
if the volume of **troublesome** information becomes unsustainable, the **orthodoxy must collapse.**”

* **John Mattick PhD** is professor of molecular biology at the University of Queensland and director of the Institute for Molecular Bioscience. “*The Hidden Genetic Program of Complex Organisms*”, *Scientific American*, October 2004, p. 61

“Modern **Darwinism** is built, most fundamentally, upon what I will be calling “**The Primary Axiom**” . . . that man is merely the product of *random mutations* plus *natural selection*. . . . It is for this reason that the overwhelming **majority of youth** who start out with a belief that there is more to life than mere chemistry – **will lose their faith while at college**. I believe this is also the **cause** of the widespread **self-destructive** and **self-denigrating** behaviors we see throughout our culture.” [Emphasis added]

* **John Sanford PhD**, retired Cornell University Professor, author *GENETIC ENTROPY*.

Dr. Sanford has published over 80 scientific publications and has been granted over 30 patents. His most significant scientific contributions involve three inventions, the biolistic (“gene gun”) process, pathogen-derived resistance, and genetic immunization.

Part A of SESSION 1 - OUTLINE:

I. Beliefs have CONSEQUENCES for CHARACTER and CULTURE

- Beliefs, like yawning are contagious
- Racism, eugenics, abortion, genocide, Hitler, selfish sexuality, America’s future?

II. WHAT Science, Evolution, and Creation ARE and what they ARE NOT

- Observational (direct/objective)
vs. historical (indirect/subjective) sciences
- Micro vs. macro evolution
- Many creation models

III. Why BELIEF in EVOLUTION makes God’s character a MONSTER

- Would a “good” God design a process of violence, suffering, and death?
- Theistic evolution unintentionally distorts the image of God

‘The German Führer [Hitler], as I have consistently maintained, is an **evolutionist**; he has consciously **sought to make the practice of Germany conform to the theory of evolution.**’

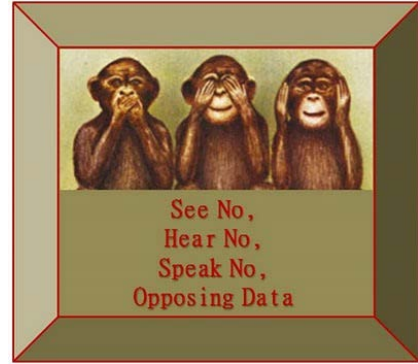

Evolution and Ethics, Putnam, NY, USA, p. 230, 1947. **Sir Arthur Keith** was a British anthropologist, an **atheistic evolutionist** and an anti-Nazi

Part B of SESSION 1 – OUTLINE

B. How CENSORSHIP Attacks 1,000s of scientists

“Nevertheless many even of the **rulers believed** in Him,
but ... they were not confessing Him,
for fear that they would be put out of the synagogue;
For they loved the **approval of men,**
rather than the **approval of God” John 12:43**

“Those who **question evolution** are often **treated as ignorant,** idiotic or ‘**anti-science**’ because they have the audacity to challenge the accepted and prevailing **consensus**. However, **history has recorded** that **consensus** was **often an obstacle** rather than an aid to understanding.” [Emphasis added]

* **Norman C. Nevin PhD** is Professor Emeritus of Medical Genetics, Queen's University of Belfast and Head of the Northern Regional Genetics Service. Dr. Nevin is the editor of the book: “*SHOULD CHRISTIANS EMBRACE EVOLUTION?*”, which includes chapters from numerous scholars.

“[**Evolutionists**] have become the **new dogmatists**, demanding judicially-imposed **ensorship of dissent**. Now, Darwinists are trying to **silence debate** through **persecution**. At Ohio State University, a graduate student's dissertation is in limbo because he was openly critical of Darwin's theory. At George Mason University, a biology professor lost her job after she mentioned intelligent design in class. At the Smithsonian, an evolutionary biologist was harassed and vilified for permitting an article favoring intelligent design to be published in a peer-reviewed biology journal.”

* **John West PhD** is a Senior Fellow at the Discovery Institute. His current research examines the impact of Darwinian science on public policy and culture during the past century. <http://www.discovery.org/a/3114>

Part B of SESSION 1 – OUTLINE

I. COURAGEOUS Scholars (1,000's increasing every year)

- Whistle blowers who have risked censorship & persecution for speaking out
- Includes the inventors of the MRI, Gene Gun at Cornell, etc ...
- Damadian, Sanford, Lumsden, Baumgardner, Menton, Humphreys, Hartnett, etc

II. CONTRADICTED Scholars (The majority, but decreasing every year)

- Evidence, NOT Majority opinion should determine scientific Authority
- We cannot & should not judge anyone's heart
- Why would the majority still hold on to a falsified theory?

* **LIVE ANIMAL CREATURE FEATURE**

* **Q & A DISCUSSION - DIALOGUE**

SESSION 2 – OUTLINE:

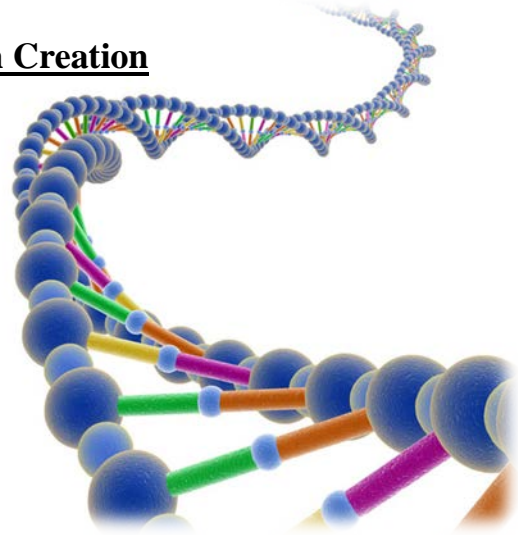

How SCIENCE Evidence Supports Young Earth Creation

“In the beginning was **the Word [the Logos – lit. the Logic]**, and the **Logos** was with God, and the **Logos** was God. ... **All things came into being** through Him, and apart from Him nothing came into being that has come into being.” **John 1:1-3**

“**Far from being an engine for beneficial change, mutations are a downhill slope.** There are also **implications** in my own discipline of thermodynamics which ... **shows that new biological machinery cannot simply arise by mutations.**”

* **Andy McIntosh PhD**, Should Christians Embrace Evolution, p. 159.

Dr. McIntosh is Professor of Thermodynamics and Combustion Theory at Leeds University England with 30 years of research. Recently, he led a team to develop technology based on God’s Bio-designs in the Bombardier Beetle - (BBC.co.uk/news/uk-england-leeds-11959381)

SESSION 3 - OUTLINE:

I. REVIEW – What SCIENCE is and what it is NOT

II. Psycho/Socio/Philoso/Theological Foundation of Knowledge and Scientia

- “Science” arose from Judeo/Christian cultures that believed a logical God made a logical world

III. Astro Science (Astronomy & Astrophysics)

- New discoveries are contradicting the evolutionary Big Bang theory

IV. Geo Science (Geology & Geophysics)

- New discoveries about fossils, rock layers, canyons, radiometric dating methods are contradicting macroevolutionary interpretations.

V. Bio Science (Biology, Genetics, Bio-information)

- New discoveries demonstrate that:

- * a living cell/DNA could never have arisen from non-living chemicals
- * new DNA for new creatures could never have arisen from mutations
- * mutations cause downward devolution & death, NOT upward evolution

SESSION 3 - OUTLINE:

How SCRIPTURE Evidence Reveals the Creator

“For since the **creation** of the world **God’s invisible qualities** - his eternal power and divine nature - **have been clearly seen**, being understood from what has been made, **so that people are without excuse.” Romans 1:20**

“Truly, truly, I say to you, **before Abraham was born, I AM.” Jesus** - John 8:58

“... just as **sin entered** the world **through one man**, and **death through sin**, and **in this way death came to all people**, because all sinned.” **Romans 5:12**

"Strange as it may seem, the **Bible** played a **positive role** in the **development** of **science**. ... Had it not been for the rise of the **literal interpretation** of the Bible and the subsequent appropriation of biblical narratives by early modern scientists, **modern science may not have arisen at all**. In sum, the **Bible** and its **literal interpretation** have played a **vital role** in the **development** of **Western Science**."

* **Peter Harrison PhD** is an Oxford University Professor of Science & Religion. “The Bible & the rise of science”, *Australasian Science* 23(3):21-24, 2009

“A **theology that embraces evolution** espouses the idea that **God chose to use death**, decay and the extinction of life forms **as the best means of developing life**. This presents a **massive challenge** to the nature of a **good God** who created a world that he was able to describe as ‘very good’.

It makes death and decay good” p. 213 “A **theology that denies** a significant fall and denies **that physical death is a result of mankind’s sin makes God responsible** for the **suffering** in our world....”

“**Darwin** considered **suffering** in the world a strong **argument against the existence of God.**” p. 214

* **Nevin PhD** is Professor Emeritus of Medical Genetics, Queen's University of Belfast and Head of the Northern Regional Genetics Service. Dr. Nevin is the editor of the book:

“*SHOULD CHRISTIANS EMBRACE EVOLUTION?*” which includes chapters from numerous scholars.

SESSION 4 - OUTLINE:

I. Historical Accuracy (His-Story: From Beginning to End / Alpha to Omega)

II. Scientific Accuracy

- 1st & 2nd Thermodynamic Laws, Earth as a sphere in space, Biogenesis, Genetic fixity ...

III. Prophetic Accuracy

- 100’s of fulfilled predictions with 100% accuracy show a Divine Author transcending TIME

IV. Hot Topics Misunderstood & Misused to Ridicule Creationists

- Eden, Cain’s wife, Long life spans, Noah’s Ark, **Dinosaurs**

V. God’s Promise to Restore a New Creation as it was in EDEN
