(PowerPoint, Video Clips, Discussion, Q&A)

The *attack* against God's truth today is more dangerous and effective, than ever before in all of history. *Misuse* of technology has resulted in a new generation of youth and adults whose worldview is based on TV shows, Hollywood movies, video games, sound-bite electronic communication, predatory politicians, and biased news media. Few people today know "WHAT" they believe, and even fewer know "WHY" they believe it. **Jesus** in Matthew 24 warned of last days deceptions and the vulnerability of His sheep. **Paul** in Colossians 2:4 said he ministered so that: "**no one will delude you with persuasive argument**". Please join me on ANY or all Thursdays in February for this "how to defend your faith" series.
