

**SECTION 9-2 REVIEW AND REINFORCE**

# Gymnosperms

## ◆ Understanding Main Ideas

Study the diagram and read the following statements. Fill in the blank to complete each statement.

1. All gymnosperms produce naked seeds. Many have \_\_\_\_\_ or scalelike leaves, and deep root systems.
2. Cycads, ginkgo, gnetophytes, and conifers are all gymnosperms. The plant shown is a \_\_\_\_\_.
3. The \_\_\_\_\_ shown on the plant are the reproductive structures.
4. The tree shown produces \_\_\_\_\_ in male cones.
5. The tree shown produces \_\_\_\_\_ in female cones.

## ◆ Building Vocabulary

Answer the following item in the space provided.

pollen    ovule    pollination

6. Briefly describe reproduction in gymnosperms. Be sure to include the above terms in your description.
